We remember the beginnings

We are the original

Engelbert Hawle, a trained machine fitter, founded our enterprise in 1948 with the idea of a revolutionary pipe connection which saves energy, time and consequently money: [the spar flange](#).

The next step taken by the Austrian pioneer in 1958 was the development of the first resilient seated gate valve: [the vulkan gate valve](#).

Engelbert Hawle (founder)

of our
development

...

Hawle - a success story

This [spirit of innovation](#), which is continuously and resolutely oriented towards [customer requirements](#), has been actively lived for generations.

Today Hawle is a [family enterprise operating globally](#) with its headquarters in Upper Austrian Vöcklabruck.
