

Accessories

Design features

- For an easy installation
- Lubricant for pipe connections, before commissioning the pipeline must be flushed thoroughly
- Made of pure silicon (with a special solvent)
- Content: 400 ml
- **Attention:** observe the safety-instruction label on the can

Design features

- Suitable for valves, spindles and O-rings
- Content: 90 g

Design features

- The dimension and type of spacer is determined by the diameter of the medium carrier pipe
- The pipeline spacer height is dependent on the inside diameter of the protective tube
- Fits easy onto pipe
- Elements portioned per ring
- No additional tools necessary
- High tolerance, withstands 2000 kg/ring
- Suitable for water, gas, sewage
